NATURE CENTER

CITY OF
ARVADA

Programs:

Public Programs

All ages can explore nature related topics; wildlife, gardening, insects, art, astronomy and more! Find a program brochure at the Nature Center or on our website, and register on-line in advance.

Community Group Programs

Great for scouts, clubs and community groups, presented at your site or ours.

Rentals & Youth Birthday Parties

Rent the facility for business meetings, social functions, and events. For birthdays, we can provide a fun nature presentation, followed by your own activity.

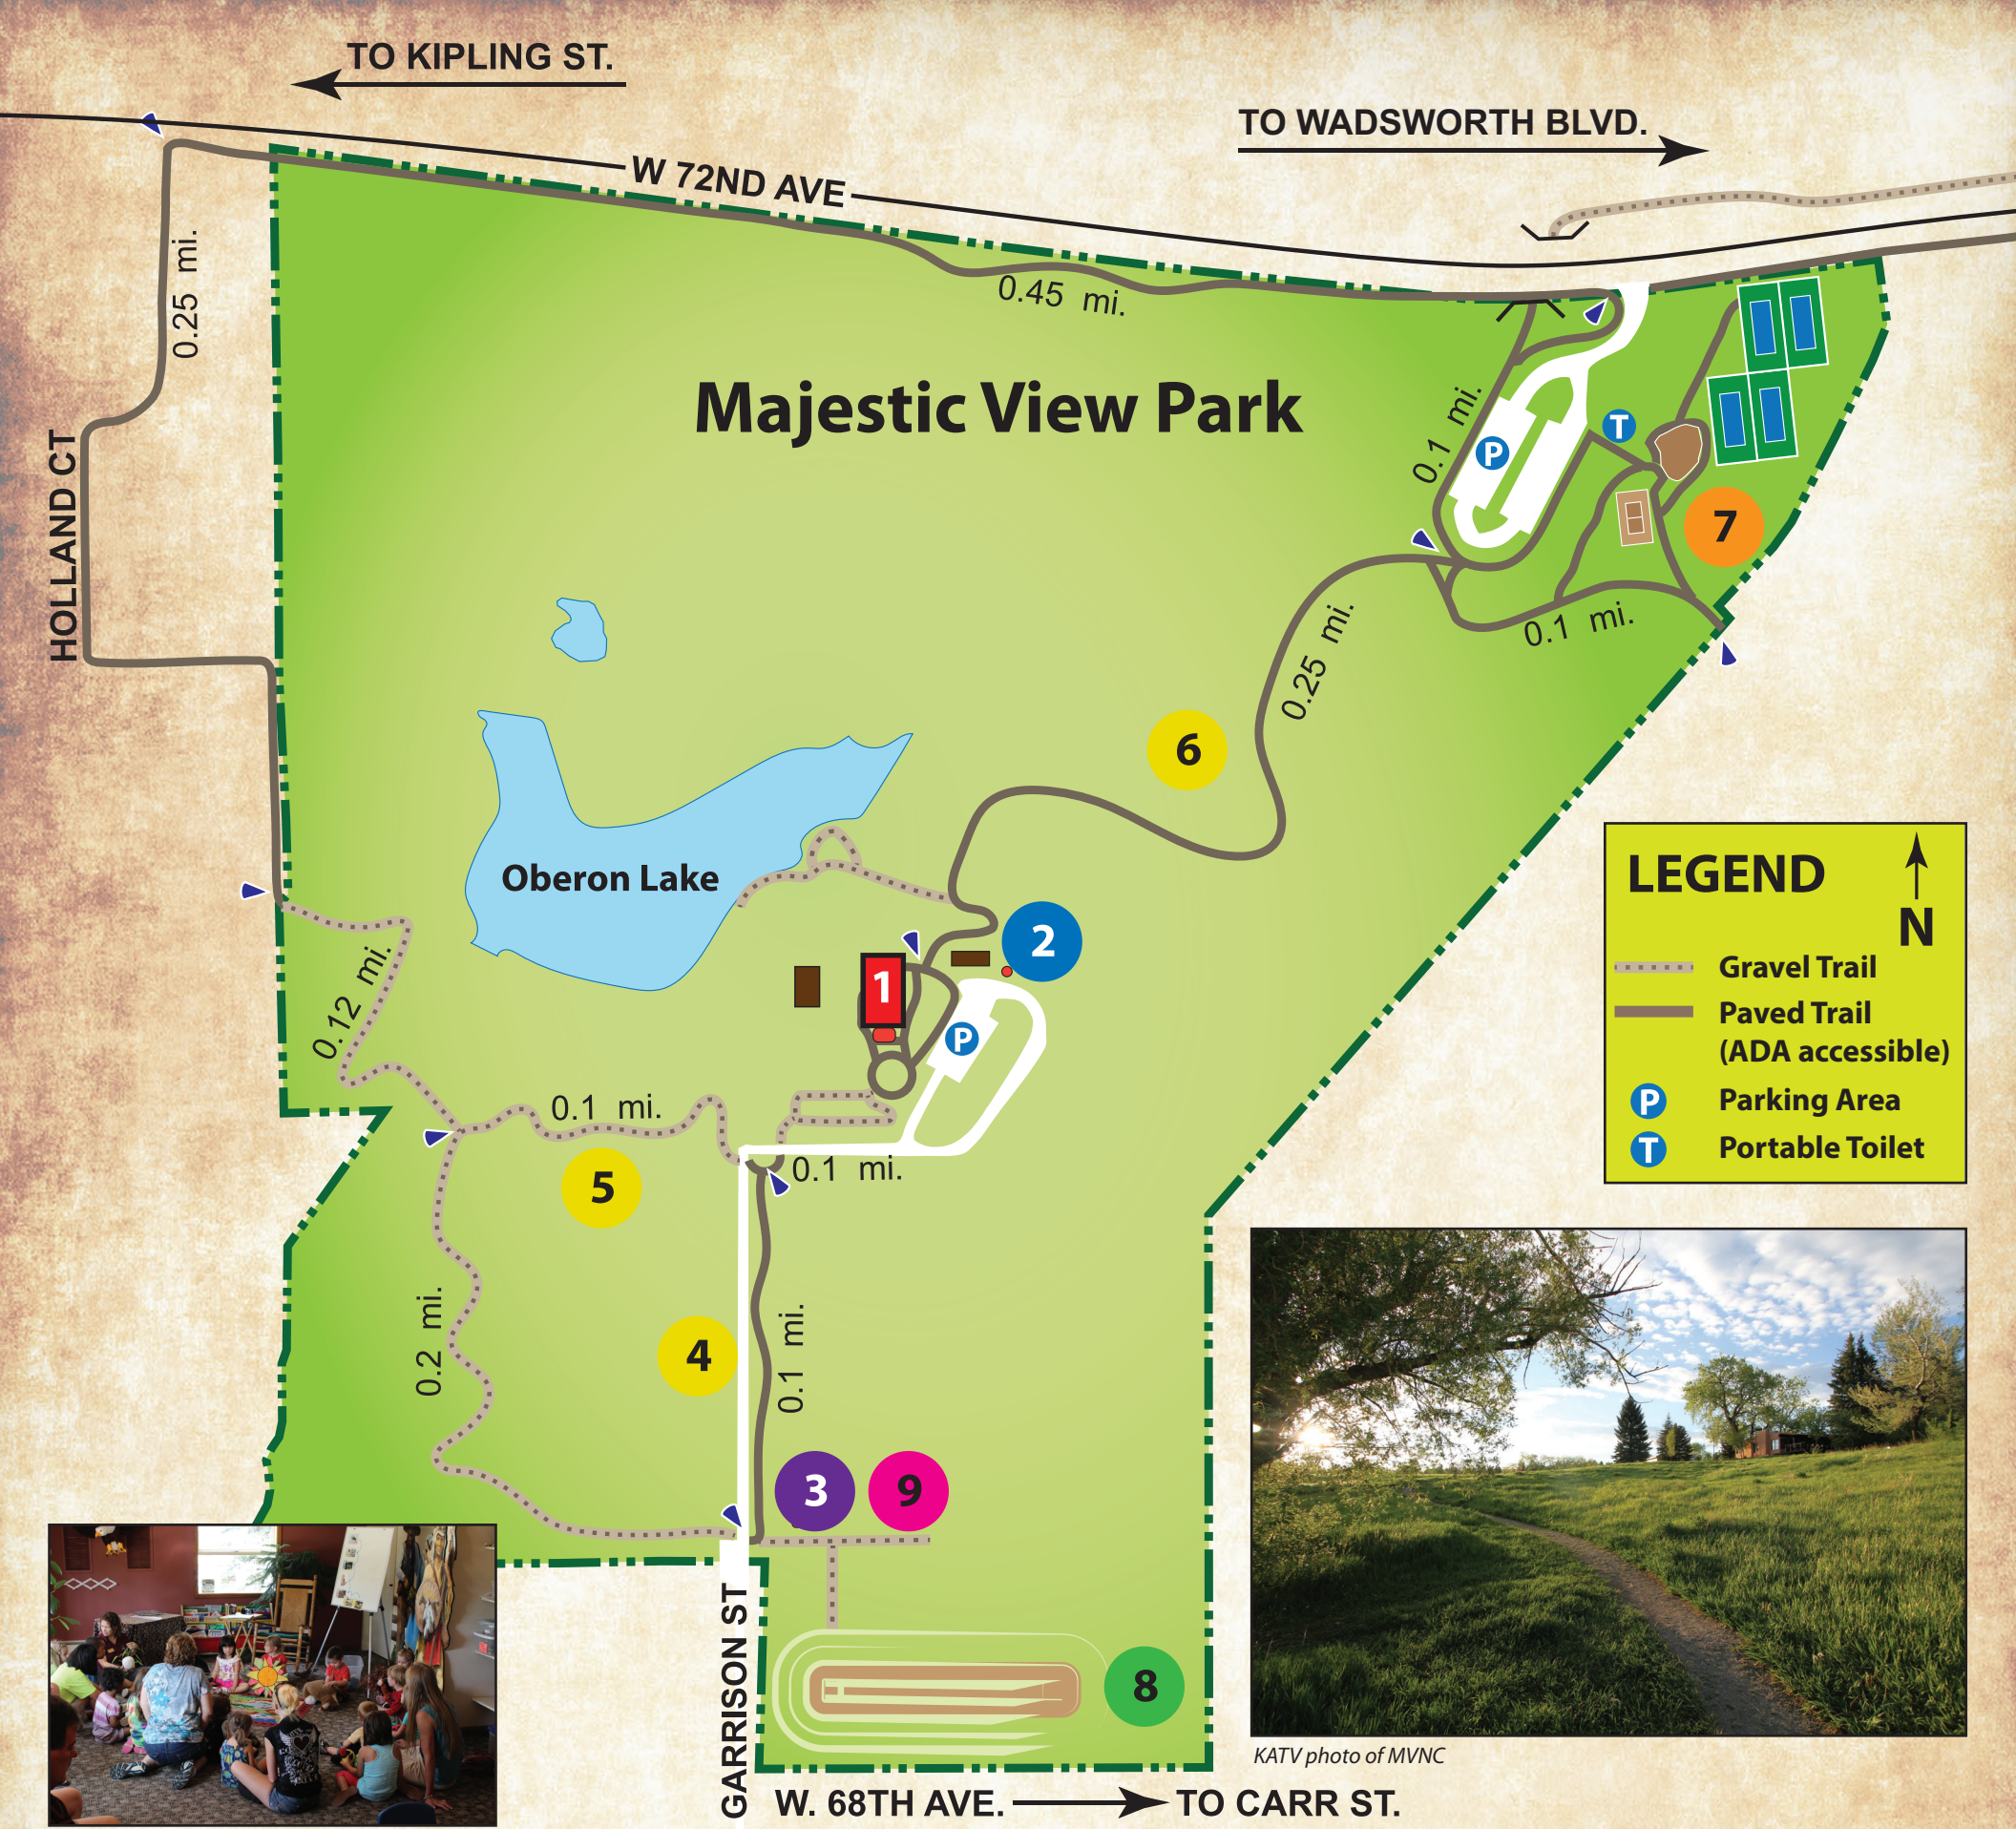

School Field Trips:

Elementary Exploration

Students learn environmental concepts through hands-on classes. Topics tailored to grade level and state science standards. Call for information and to schedule.

Water Wise! The Science and Conservation of Water

Free outreach for Arvada schools. Teachers, call to schedule.

Points of Interest on the Map:

- 1 Nature Center and Demonstration Garden –** Learn about the natural history of Arvada, see wildlife displays, participate in programs, and enjoy hands-on-learning. Stroll the garden, picking up ideas for plantings at your own home.
- 2 Astronomy Pad –** A concrete pad with amber lighting and electricity. Can accommodate up to 6 telescopes, perfect for viewing the night sky.
- 3 Outdoor Classroom –** A flagstone patio, shade trees, and grassy lawn anchor our outdoor classroom, accommodating large school groups and public programs.
- 4 Prairie Trail (0.1 miles) –** A paved trail with benches to enjoy views of the front range.
- 5 Cattail Trail (0.3 miles) –** A gravel trail sloping through short grass prairie. Check out the wetland grasses and wildlife at the bridge.
- 6 Interpretive Trail (0.35 miles) and Oberon Lake Path (0.1 miles) –** A paved trail with views of Oberon Lake with signs to learn about the local ecosystem. Don't miss the spur gravel trail near the Nature Center, leading to a deck overlooking the lake.
- 7 Playground & Recreation Area –** Tennis courts, a basketball court, a creative playground, picnic tables, and lots of shady grassy areas to enjoy the view.
- 8 Urban Agriculture Site –** Frontline Farming cultivates this area to provide a location for hands-on learning while also growing fresh produce for sale and donation. Get more information at frontlinefarming.org.
- 9 Nature: Explore –** Count tree rings, make stick forts, balance on logs, stack rocks, dig holes in the dirt, and discover nature's wonders in this interactive environment.

View from the Interpretive Trail looking west.

Enjoy Your Visit!
